A WASH SYMPOSIUM FOCUSED ON CREATING IMPACT IN THE GLOBAL WATER, SANITATION & HYGIENE SECTOR

OCTOBER 8, 2022

HYBRID EVENT @ ARAPAHOE COMMUNITY COLLEGE (DENVER AREA) & VIRTUAL

*Speakers * Knowledge Exchange * Best Practices * Networking * Student Awards*

Water, sanitation and hygiene (WASH) are basic necessities for a healthy environment and a productive life. They are interrelated, but infrastructure, training and education, and project completion do not necessarily have IMPACT unless there is local capacity building and measurements in place to ensure longer term sustainability for WASH in homes, communities, and regions.

Tusu Tusubira
TRF IMPACT Task Force

Sister Larraine Lauter
Water for Blessings

Jack Sim
World Toilet Organization

Net proceeds are used by the D5450 WASH Local Action Group and the Rotary Club of Evergreen, Colorado, to provide university student awards of up to $1,000 to conduct a WASH field study, or attend a national or international WASH conference. Awards are competitive and selected based on an essay and interview with the Award Committee. Additional funds go to the George K. Davis Award, which encourages Rotary clubs to perform quality WASH projects.
